

Primary Sources of the Civil War

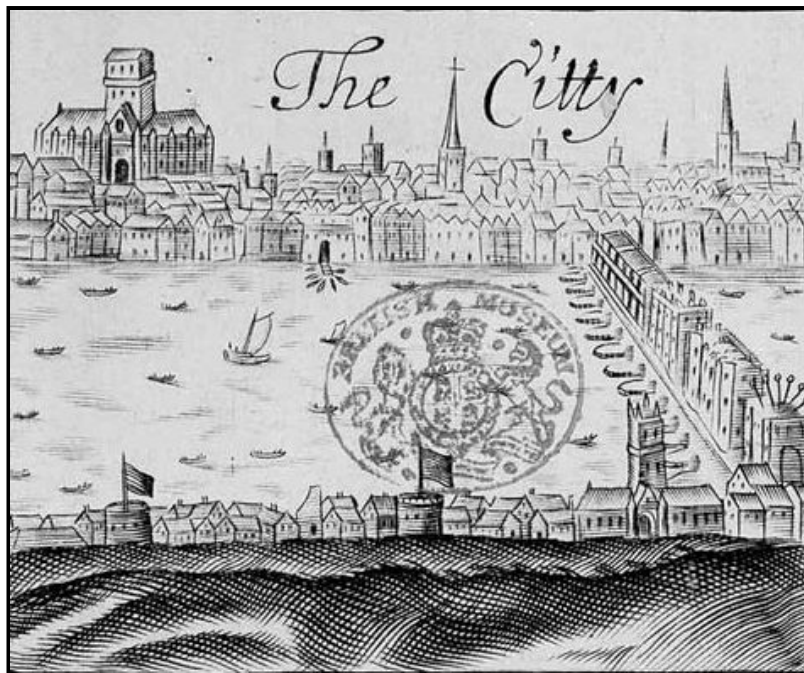

This cartoon was drawn in 1647 after the first round of fighting of the Civil War had ended. Parliament had arrested the King. The cartoon is describing the world at that time:

1. What can you see in this image?
2. Can you label which things seem odd?
3. What do you think the artist is trying to say about the Civil War?
4. Why do you think the artist drew this?

This image was drawn in 1643 and was one of several pictures which showed events of the Civil War:

1. What can you see in this picture?
2. What does it tell you about the army in 1643?
3. What does it tell you about 1643 in general?

This picture is of London and was drawn in 1643:

1. What can you see in this picture?
2. What material do you think the buildings are made from? Do you think they are all made from the same material?
3. What do you think London was like in 1643 from this picture?
4. How does London in 1643 compare to London in 2021? (see below a picture of the same view in 2021)
